

The Frounfelter Scholarship

The Frounfelter Scholarship was founded by Lori and D.J. Frounfelter in 2002. By 2003, the scholarship was endowed and able to last forever. The scholarship was established to honor D.J.'s brother, William "Bill" Frounfelter.

Lori and D.J. own a Dentist's office in Rochester, Indiana. They are very active in their community and very well respected for their dentistry practice. The Frounfelter family has been a part of the community for years and they have always had a passion for education.

The family says, "There is nothing more important from a society standpoint, than the education of our youth."

The Frounfelter scholarship is awarded to graduating seniors from Rochester High School whose academic efforts have placed them in the top 20% of their class, the awarded student must have attended RHS for his or her four years of high school, have a B average or above, and must be an involved member of their school, work, and community.
