

### **Dorothy A. Goss Memorial Scholarship**

The Dorothy A. Goss Memorial Scholarship was established in 2016 by Barbara Hattery in memory of her sister Dorothy "Dottie" Ann Goss.

Dottie was a bright and vibrant woman. She was raised on a farm near Fulton and was a graduate of Fulton High School, now Caston High School. Her intelligence was never unnoticed, and she was salutatorian of her class in 1955.

Dottie then went on to obtain her bachelor's degree from Purdue University and a master's degree from the University of Illinois. Eventually, she earned her PhD from Cornell University while she was teaching. She received many honors for her professorship at the universities she worked for.

In her free time, she enjoyed traveling, attending basketball games, craft shows, and spending time with family and friends.

Dottie passed away in 2016 at the age of 78. Her legacy will now live on through this scholarship. This scholarship supports graduating seniors who are following in Dottie's footsteps. The scholarship is awarded to individuals from Caston High School who are pursuing a degree at Purdue University in the field of education.
